

Description:

PHBP perform 150W 4000K IP65 1-10V 120gr

PHBP is a multifunctional and high-performance high-bay ready for the future. The IP65 housing with integrated ventilation slots guarantees optimal air flow and cooling. PHBP is equipped with high-performance SMD2835 LEDs, an isolated 1-10V dimmable quality driver and comes standard with an opal PC cover for pleasant and less dazzling lighting. The device efficiency with opal cover is 155lm/W. A device efficiency of up to 170lm/W is possible with a transparent cover (optional). Optionally, a PIR or microwave sensor can be added. The sensor can be quickly adjusted with a universal infrared transmitter. With the optional wall bracket it is possible to mount the device in a fixed position on a wall or ceiling.
